[Project No. 12588-000]

Hydraco Power, Inc.; Notice of Availability of Environmental Assessment

April 18, 2006.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 F.R. 47879), the Office of Energy Projects has reviewed the application for exemption from licensing for the A.H. Smith Dam Project. Staff prepared an environmental assessment (EA) for the project, which is located on the San Marcos River near the town of Martindale, Caldwell County, Texas. In the EA, Commission staff analyzed the potential environmental impacts of the project and concluded that exempting the project from licensing, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed

on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

Any comments should be filed within 30 days from the issuance date of this notice, and should be addressed to the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1-A, Washington, DC 20426. Please affix "A.H. Smith Dam Project No. 12588" to all comments. Comments may be filed electronically via Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "eFiling" link. For further information, contact Monte TerHaar at (202) 502-6035.
